NEWSfeature

SHOP 2008 welcomed over 4,000 buyers and decision makers, including forecourt and retail outlets, independent retailers, conveniences stores, symbol group buyers, supermarkets and wholesalers. One of the highlights of the event was the 2008 World Cheese Awards. Celebrity chef and TV presenter Antony Worrall Thompson was flown in especially to judge the event, along with our own Darina Allen and a host of other experts. The RDS was packed with innovative new products, including a hangover cure called Security Feel Better and the Eggspress Vending Machine. There was also no shortage of indulgent food on offer as HB Swirl It Express handed out free samples to hungry passers-by.
